

Code: MAB154

Fertiliser usable in organic vegetable production under R(EU) 2018/848 according to UNE 142500 standard.
Fertiliser usable in organic vegetable production under NOP and JAS standards.

CHARACTERISTICS

EKLIPSO is formulated with calcium and stabilised micrometric particles, especially designed for surface application. Its high calcium carbonate content contributes to an amendment effect. This product works through surface deposition, reducing the direct impact of solar radiation. Its formulation is free from nitrogen, sulphates and chlorides, ensuring optimal adaptation to the specific requirements of the most demanding crops.

DECLARED CONTENT	% w/v	% w/w
Total calcium oxide (CaO)	60.9	35.0

pH: 8.6

INDICATION OF CROPS, DOSES AND RECOMMENDED TERMS OF USE

Recommended for foliar application, in both woody and herbaceous crops, at the following doses:

APPLICATION	DOSE
Foliar	1,5-2,5%

Apply before the onset of high temperature season and during periods of lower solar radiation. Apply immediately after preparing the mixture and do not store the product in solution.

COMPATIBILITY

Do not mix in solution with products that contain phosphorus or sulphur (sulphate ion). Avoid mixing with humic acids, fulvic acids or strong bases. In case of doubt, make a previous test.

STORAGE INSTRUCTIONS CONCERNING THE TEMPERATURE AND THE PREVENTION OF ACCIDENTS

Do not store below the crystallization temperature. Packages >25 kg must be handled by two persons if mechanical handling is not available. View MSDS.

PRECAUTIONARY STATEMENTS

P102: Keep out of reach of children.

P270: Do not eat, drink, or smoke when using this product.
