

Code: FZF738

## CHARACTERISTICS

**SULVIAN** it is a liquid fertilizer that improves the synthesis of proteins and amino acids, enhancing photosynthesis, plant metabolism and the vegetative development of the crop. Thanks to its advanced formulation, with a high content of soluble sulphur and highly assimilated nitrogen, it promotes vigorous and healthy growth. Its application is suitable for all types of crops, at any stage of development, both at the foliar and root levels.

DECLARED CONTENT	%w/v	% w/w
Total nitrogen (N)	19.5	15.0
Ammoniacal nitrogen (N)	14.7	11.3
Nitric nitrogen (N)	1.6	1.2
Ureic nitrogen (N)	3.3	2.5
Sulphur trioxide (SO <sub>3</sub> ) water soluble	69.5	53.5
<i>Biuret content &lt; 0.07 %</i>		

pH: 8

## INDICATION OF CROPS, DOSES AND RECOMMENDED TERMS OF USE

It is recommended for foliar application and irrigation at the doses indicated below:

APPLICATION	DOSE PER APPLICATION
Foliar*	2-4 L/ha
Irrigation**	3-5 L/ha

\*Using a minimum water volume of 200 L/ha.

\*\*Dose for drip, sprinkler and pivot irrigation systems.

## COMPATIBILITY

It is not recommended to mix with products containing calcium and with acidic fertilizer sources. It can be applied alone or in a mixture with the usual phytosanitary products, however in case of doubt it is recommended to make a small initial mixture. In combination with herbicides it acts as an enhancer and accelerates its effect.

## STORAGE INSTRUCTIONS CONCERNING THE TEMPERATURE AND THE PREVENTION OF ACCIDENTS

Do not store below the crystallization temperature.
